RE: 【Announcement】(Important) Permit of "Plastic Waste" cargo to PORT KLANG

有关废塑料进口至巴生的要求

Need your assistance to pay the attention for this announcement.

Importers/Consignee of Plastic Waste (Tariff Code 3915) are to provide to Interasia Line a copy of the AP (Permit) issued by the Dept. Of National Solid Waste Management with valid and accurate details well before the arrival of the cargo to Port Klang, failure to do so may result in container not being allowed for discharge by LPK.

We respectfully suggest that POL provide alert to Shipper this issue and request shipper to provide the copy letter of AP permit to POL each time when booking is secure. POL must forward the copy letter to POD each time before shipment arrive at destination. This is to ensure the POD had advance notification and to avoid non-discharge issue at POD.

If POL or shipper can't provide AP permit, may cause the unit long stay at PORT KLANG. Please assist to follow the announcement. Thank you!

基于以上的通知，烦订舱品名是废塑料至巴生港的请提供以下资料

1. 订舱前提供 consignee copy of AP permit
2. 船开前提供正本保函

Yours faithfully,

INTERASIA LINES
